

1. Front cap now has the “iconic” C-lights incorporated into the exterior design. This enhancement gives Reatta and Reatta XL models a nod to the brands Entegra Coach heritage.
2. Stunning decors are complemented by Italian leather furniture - no more synthetic vinyl furniture coverings. Real leather last for years, unlike man-made material so often used by other OEM's.
3. A portable Shark vacuum replaced the stationary Dirt Devil System, allowing user flexibility within your coach.
4. We have added a basement electrical port, near the power switches and batteries, for those who also have the complementary Starlink remote system, too.
5. Improved the air flow by adding venting to pantry and bunk cabinet doors.
6. Updated the headlight switch from amber to white backlighting to match other switches within the cockpit.

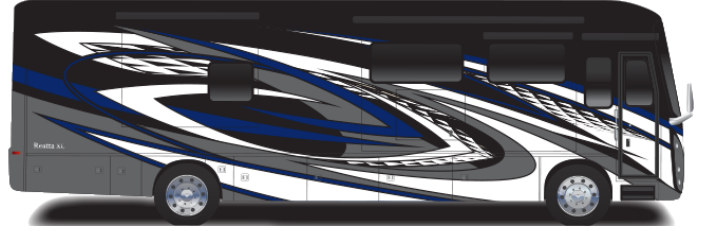

# REATTA XL & REATTA
